CustoCide PE910	Phenoxyethanol (and) Ethylhexylglycerin	1.0	3.0	LBBS

Procedure:

1. Predisperse HYA-ACT S in glycerin and dissolve slurry in water
2. Dissolve Rejuvaveen in the same phase
3. Add Flocare and mix until thick and uniform; about 15 minutes.
4. Add phase B ingredients into phase A until mixing one by one and mix until uniform
5. Add phase C ingredients to the main batch one by one and mix until uniform
6. Homogenize until uniform for at least 5 min
